Other Truck Criteria					
Truck tractor units, traveling w/o trailer will be considered single-unit trucks (usually a 6)					
A truck tractor unit pulling other such units in a saddle mount configuration will be considered 1 single unit truck, and will be defined only by the axles on the pulling unit.					
Vehicles are defined by the number of axles in contact with the road. Floating axles are counted only when in the down position.					
Trailer includes both semi- and full trailers
